Installation Instructions for Network Version of ADMET Predictor™ 8

Before you begin

In order to install ADMET Predictor TM, you must have Administrative privileges. Your computer will need to communicate with the computer that is hosting the Flexera license server.

Installation

The first step in the process is to extract the files from the AP80-Install.zip file. Right mouse click on the AP80-Install.zip file and select "Extract All...". The dialog box below will appear. Accept the default destination folder and click on "Extract".

Ltract Compressed (Zipped) Folders	
Select a Destination and Extract Files	
Files will be extracted to this folder:	
C:\Users\Simulations Plus\Desktop\AP80-Install	Browse

In the AP80-Install directory, double click on the "setup.exe" icon:
