

SLP Academics:

M&S opportunities today... for your success tomorrow!

John DiBella

President – SLP Division

john.dibella@simulations-plus.com

Please note: this presentation, including questions from the audience, is being recorded and may be made available.

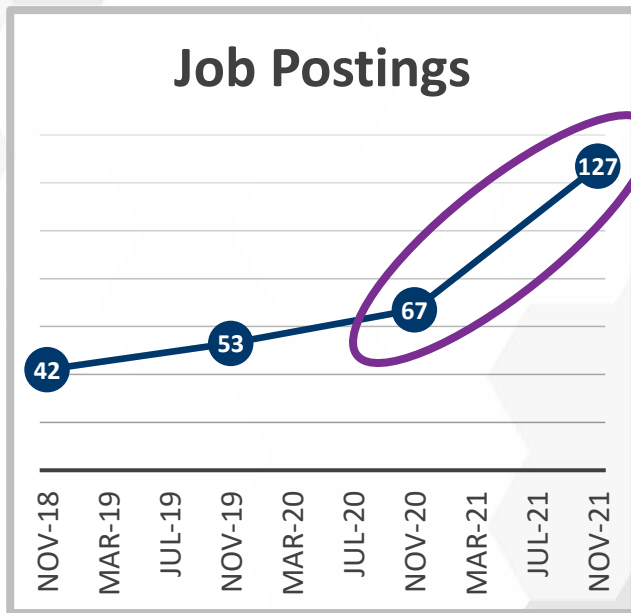

Evolving relationship between M&S solutions and R&D

- **Model “supported” (first questions 20 years ago):**
Do you think modeling and simulation might help?
- **Model “based” (questions 5 years ago):**
How can I maximize the value of modeling and simulation in my development program?
- **Model “informed” (questions today):**
How do I change our R&D process to reflect the availability of in silico tools and techniques?

What a great time to be a PBPK modeler!
