

Pythia  
BioSciences

*Multi-omics data*

*Target ID*

*AI-driven Drug Design*

*Lead Candidate*

## Use CDIAM and the AIDD platform in ADMET Predictor® to take your program from target indication to optimized lead candidate

With CDIAM and AIDD, you can identify a target from multi-omics data and quickly generate high-quality leads. Once you have a good lead, take it further and expand to new indications.

*Pancreatic  
cancer*

*Psoriasis*

*SARS  
CoV2*
