# Synchronize discovery and development ADME
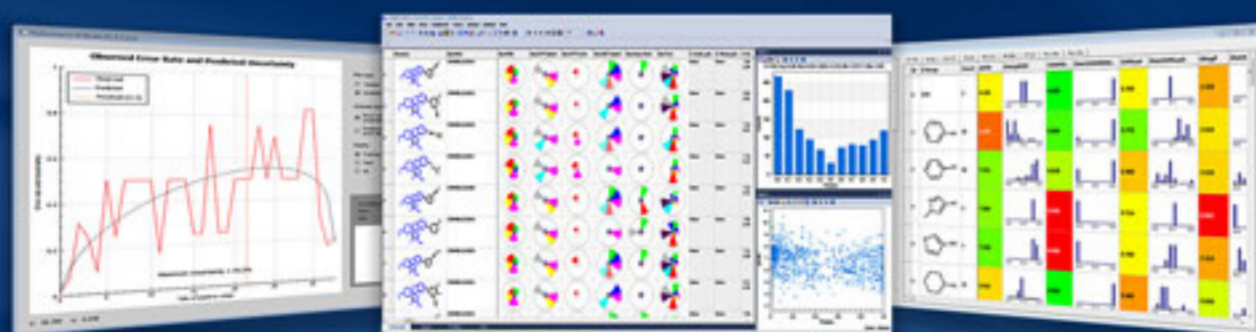

GastroPlus®

PBPK modeling software – from discovery through regulatory filings...

+

ADMET Predictor®

AI Powered ADME property prediction

GastroPlus + ADMET Predictor (GAP) Program

1. Leverage your investment in the GastroPlus ADMET Predictor module with standalone ADMET Predictor.

2. Benefit from ADMET Predictor's high throughput property predictions for a fraction of the price.

3. Connect discovery and development departments as projects progress through the drug discovery cycle.

4. Enjoy ADMET Predictor's advanced visualization and analysis capabilities.

5. Support discovery chemistry groups with validated ADME models.
