# PKanalix®

Your software should make it easier to conduct non-compartmental, bioequivalence and compartmental analysis and use that data to make the right decisions for your program.

Does it?

Does your software platform offer...	Others	PKanalix®
Regulatory compliance, validation suite and data integrity	✓	✓
Integrated tools for data processing, NCA and BE analysis and report generation	✓	✓
Publication quality customizable plots	✓	✓
Support for all administration types, steady states, and urine data	✓	✓
Full control of terminal slope calculation with automatic and user-defined rules	✓	✓
Proficient support and extensive tutorial resources	✓	✓
Streamlined navigation with efficient interface design	✗	✓
Seamless integration for simulations and population modeling	✗	✓
Out of the box plots for immediate, interactive data and results visualization	✗	✓
Automatization and consistent workflows with scripting actions in R	✗	✓
