

StrategiesPlus™

Regulatory Strategy & Support

Why Strategies+?

Our Strategies+ group brings together colleagues with extensive hands-on experience developing drugs as part of regulatory, large pharma, biotech, and CRO teams.

With this experience, we can shorten the time it takes a drug to get to market and minimize the costs associated with extended research timelines and regulatory interactions. Together, we can bring the safest and life-changing treatments to patients FASTER.

Strategy & Guidance

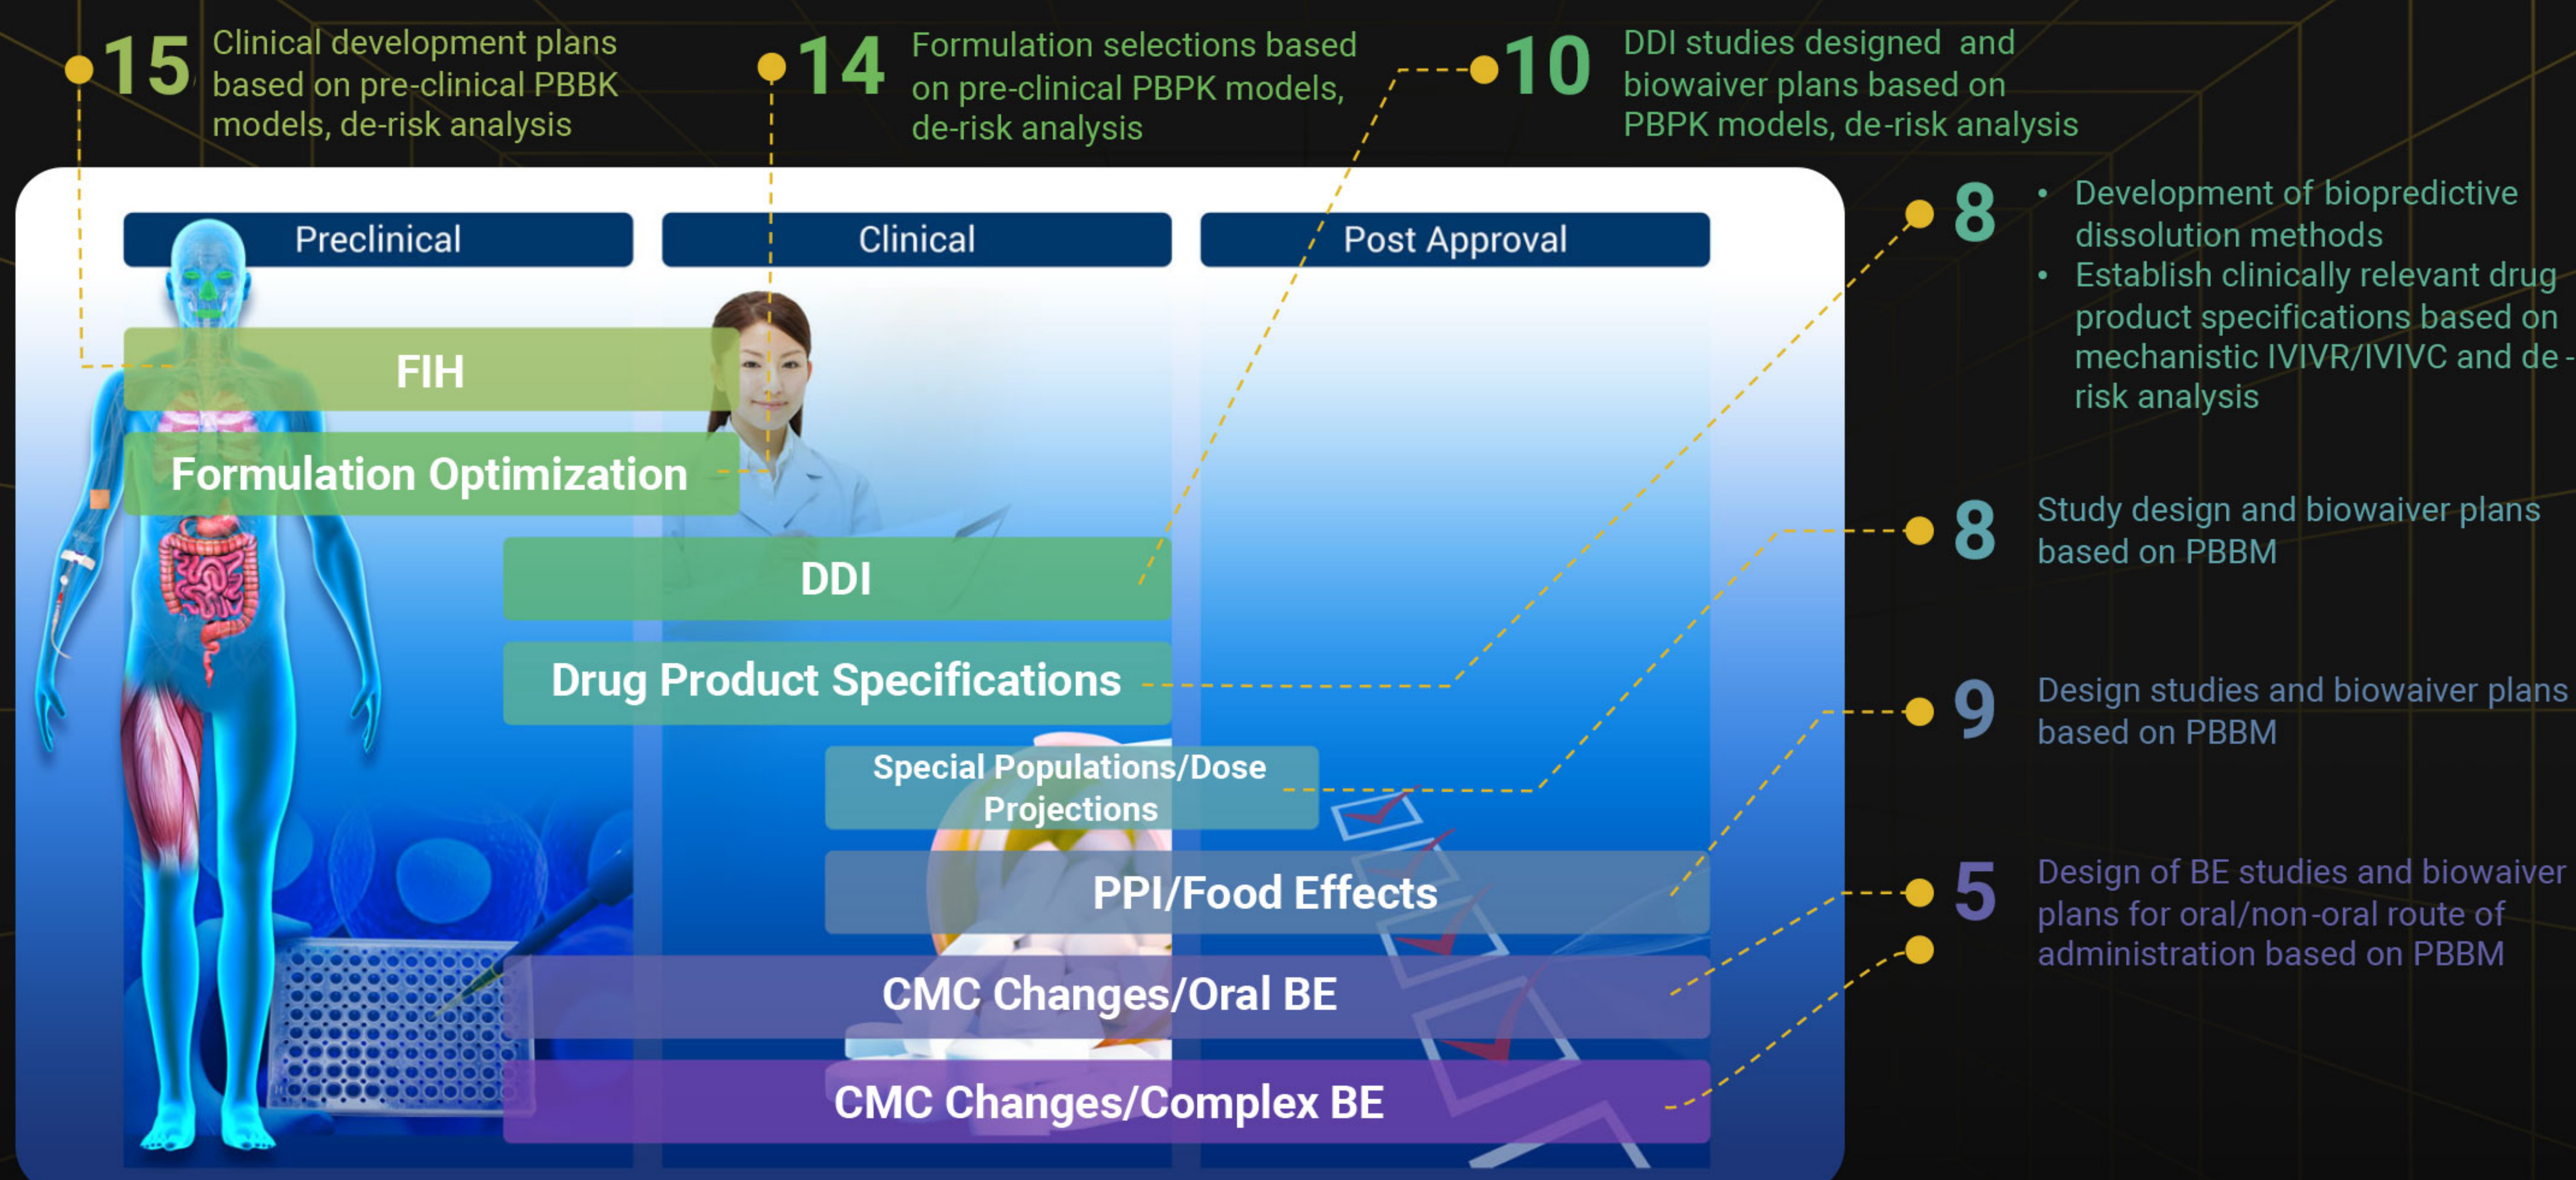

Integrated Model-Informed Drug Discovery and Development

Review & Risk Assessment

The Strategies Plus Vision

- Guide the selection of translational and clinical development strategies that maximize the probability of program success
- Assess and inform risk mitigation strategies to ensure patient-centric drug product development & quality
- Ensure our clients meet global regulatory policy and compliance requirements while minimizing information requests and regulatory oversight.
